mohsinrasheed.contact@gmail.com | +49 157 54979246 | Berlin, Germany | 

EDUCATION

MSc International Business | HTW Berlin

04/2025 to Present

Specialization in Business, Finance and Analytics

- Coursework: Quantitative Methods, Data Analytics (Bloomberg Terminal), Financial Management, Financial Accounting (HGB and IFRS)

BSc (Hons) Accounting and Finance | Hazara University

09/2019 to 07/2023

- Gold Medalist, Dean's Honour List, top of graduating cohort

ACADEMIC PROJECTS

Company Valuation and Risk Analysis, Carrefour S.A. | MSc Coursework, HTW Berlin

04/2026 to 06/2026

Tools: Bloomberg Terminal, Excel Advanced, Damodaran datasets, PowerPoint

- Benchmarked against 4 global retail peers (Walmart, Tesco, Costco, and Kesko) using financial and operational performance indicators to inform a strategic positioning analysis
- Performed market and competitor research using Bloomberg Terminal data, annual reports, and external datasets to evaluate business performance and competitive positioning
- Built a PowerPoint presentation translating the analysis into clear findings and recommendations for course stakeholders
- Assessed capital structure, ESG commitments, tax environment, and regulatory exposure across multiple international markets to identify key business risks and opportunities

EUR/USD Exchange Rate Forecasting | MSc Research Project, HTW Berlin

04/2025 to 07/2025

Tools: Python (pandas, statsmodels), ARIMAX/SARIMAX, Bloomberg Terminal, FRED API

- Designed and executed an end-to-end time series project using 10 years of historical EUR/USD data (120 monthly observations) from multiple economic databases, integrating exchange rates, interest rates, inflation, and market volatility into one dataset
- Automated data collection, cleaning, transformation, and validation in Python, and engineered macroeconomic features including interest rate and inflation differentials and market volatility indicators
- Delivered a 6 month forward forecast (January to June 2026) and translated the technical output into a clear, business relevant conclusion: the inflation differential was the only statistically significant driver of EUR/USD movements in the study period

EXPERIENCE

Finance and Operations | Meezan Bank Ltd.

08/2023 to 11/2024

Tools: Excel Advanced, Power Query, internal case management systems

- Coordinated across Relationship Management and Legal teams to consolidate input on account related topics into clear next steps for over 200 client accounts
- Tracked open topics from identification through resolution, investigating and resolving account discrepancies through direct client communication
- Analyzed daily account processes across 200+ accounts to identify recurring errors and opportunities for automation, designing an internal verification checklist later adopted as the team wide standard
- Built a self-initiated KPI dashboard in Excel and Power Query that cut stakeholder wait time for account status insights by over 50 percent compared to month end reporting
- Maintained zero audit exceptions across 200+ accounts for 15 consecutive months through structured monitoring, documentation, and timely follow up

SKILLS

Project and Stakeholder Coordination: tracking open topics and milestones, consolidating input across teams, cross functional coordination

Data Analysis and Reporting: Excel Advanced, SQL, Python, Power Query, KPI dashboards and reporting

Market and Competitor Research: Bloomberg Terminal, financial benchmarking, strategic analysis

Communication and Presentations: PowerPoint, translating complex data into clear conclusions for stakeholders

Working Style: structured, analytical, proactive, independent, fast learner (Python, Bloomberg, Tableau, Power BI)
